

Technical Group/DAS/IMSS/OL
WEEKLY STATUS REPORT
Week of 5 December to 9 December 1983

I. Major Activities During the Past Week:

A. Support to OL:

AVRS (Agency Vehicles Records System). The NIPS database has been restored and the customer has successfully reinput the records that previously could not be stored on the NIPS database.

STAT

REALESTATE (Realestate System). The System Requirements Document (SRD) has been written for the Domestic Real Property System (DRPS) in response to a memorandum dated 4 November 1983 from [redacted] Chief, Real Estate Branch. In the memorandum he requested an automated system be designed and implemented for the purpose of storing information regarding Agency domestic real property holdings. The SRD document presents the system-level objectives and requirements in customer language.

II. General Items:

A. Support to OL:

MISCELLANEOUS. On 8 December [redacted] attended the Agency Alcohol Awareness Program [redacted]

STAT

STAT

STAT

III. Problems:

A. Support to OL:

ICS (Inventory Control System). ICS has not been receiving invoice data from CONIF since the interface processing began on 1 October. To begin with, it was thought that the problem was strictly due to the extract from CONIF. This extract was changed last week but ICS was still not getting data in their SUSPENSE file as they should have. Upon closer investigation, it was found to be a failure on the part of ICS to properly load and update the INVOICE and SUSPENSE files. We will be running the interface processing from ICS to CONIF ourselves next week until ICS has all the data it should have from CONIF. [redacted]

STAT
STAT

FARS (Federal Automated Requisitioning System).

[redacted] went to visit DATEX on 9 December. While we were there we watched the communications between FARS and DATEX and got a better feeling of the problems that have been occurring during communications. Next week DATEX would like FARS to send test files to see if the new system that we are on is causing the problems. [redacted]

STAT

IV. Upcoming Events:

None to report.
